Safety Instruction

1. Before using this product, please read and fully understand this document and all related documents of this product. Failure to properly operate this product could cause serious injury to yourself or others, or damage to this product and other property.
2. Please make sure the input rating of the device you connected does not exceed the rating of this device.
3. The plug of this device shall connect to the grounding receptacle which is easily accessible.
4. Do not use two or more of these devices in a series.
5. Do not repair this device by yourself. For cleaning, wipe with a dry cloth.

Product Overview

LED Indicator

Color	Status	Explanation
Green	Breathing	The smart plug is working, and there are electricity from the PowerStream microinverter.
	Solid	The smart plug is working, but no electricity from the PowerStream microinverter.
Blue	Blinking	In the pairing mode.
Red	Solid	Error
Purple	Blinking	Updating the firmware.

Pairing with EcoFlow App

01 Download the EcoFlow app.

02 Plug in the smart plug.

03 Press once to turn it on. The indicator will turn green.

04 Press and hold the button until the indicator blinks blue. The smart plug switch to the pairing mode.

05 Complete pairing in the EcoFlow app.

Pairing with the Matter System

You can integrate it into any Matter ecosystems for easy control.

1. Open the Matter-supported smart home app, such as Apple Home and Alexa.
2. Press and hold the button until the indicator blinks blue. The smart plug switch to the pairing mode.

3. Scan the Matter code, a dedicated label, on the smart plug with the smart home app. Follow the instructions in the app to complete pairing.

NOTICE

For pairing, it is better to select the same Wi-Fi when using the EcoFlow app and Matter code.

Turn on or off the smart plug in the app, or control it with your voice (depending on the feature of the smart home app).

Use the setup code in the paired smart home app to pair the second smart home app instead of scanning the on-device Matter code.

Factory Reset

Press and hold the button for 10s to reset the smart plug .

Page of your Smart Plug in the EcoFlow App

NOTICE

The figures are for reference only, please refer to the actual app interface.

Tap to enter the "Setting" page of your smart plug.

Switch on or off

View time of use and current power in real time, and today's power consumption.
Tap to view historical data by day, week, month, or year.

Set timing for turning on or off the smart plug.

Set the delay time for turning on or off the smart plug.

Firmware update

On the page of your Smart Plug, tap  > "System setting" > "Firmware" to check the firmware version or update the firmware.

Relay Function

The smart plug has a relay function that sends a signal to another smart plug, thus enhancing the signal propagation. Each smart plug can only be relayed once.

Specifications

Operating temperature	-10 °C to 40 °C (14 °F to 104 °F)
Humidity	10 % to 90% RH (non-condensing)
Altitude	≤2000 m
Overvoltage category	II
AC Input	110V-250V 50Hz
Pollution degree	2
Minimum displayed power	1 W
Wi-Fi (2.4G)	Frequency range: 20M: 2412 - 2472 MHz / 40M: 2422 - 2462 MHz Maximum output power: ≤20 dBm
Bluetooth®	Frequency range: 2402-2480MHz Maximum output power: ≤20 dBm
